

BOLTON SOUTH DISTRICT SCOUTS **3rd ADULT PIKE HIKE WEEKEND 2010**

www.pikeviewhike.co.uk

INFORMATION

Please ensure that ALL TEAM MEMBERS read this information and understand the rules governing the event.

It should be appreciated that this hike passes through potentially hazardous country and also some of the most beautiful in the West Pennine Moors and should be undertaken only by those who are physically and mentally prepared.

Any walker who has had any acute illness e.g., tonsillitis, influenza, chest infection, etc. in the four weeks prior to the event, should consult his/her doctor before competing.

STARTING ARRANGEMENTS

Teams for the Adult Pike View Hike will be given their team numbers and kit inspection times on the week commencing 14th September 2010, sent via email to the address provided on the entry form. The walk itself is expected to take between 6 and 8 hours to complete.

The start will be controlled by the organising group.

ALL TEAMS WILL BE INSPECTED BEFORE STARTING TO ENSURE THAT EACH COMPETITOR HAS THE REQUIRED EQUIPMENT. Points will be lost by any team member that does not have all their equipment.

MAP

The map 'Explorer 287 West Pennine Moors' covers the whole of the hike and this is the only map to be used. Only a complete, original, unmarked, Ordnance Survey map may be used – copies are NOT acceptable. Waterproof (laminated) maps may be used, provided teams supply themselves with the appropriate permanent markers for purposes of marking a route – routes marked with dry-wipe markers will not survive the day!

Routes will be presented in the standard Scout Association "Route Card" format (Fact sheet FS120409), therefore please ensure the competitors are able to plot a route, unassisted, using this format. A sample is available on the Pike View Hike website.

WALKING INSTRUCTIONS

It is essential that each competitor sign in at each checkpoint, and again on completion of the hike at Control. We award 4 points per signature at each checkpoint, with a bonus of 4 points if all signatures from each team member are present.

PLEASE KEEP TO THE FOOTPATHS/OPEN ACCESS LAND, AND RESPECT THE COUNTRY CODE.

Walking teams must keep together AT ALL TIMES as a team and when on the road keep to the right and in single file.

RESCUE SIGNALS

Teams should note the following signals that will be used by teams in difficulties.

6 Flashes/Blasts in quick succession followed by one minute's silence.

3 Flashes/Blasts in quick succession followed by one minute's silence.

Teams will be provided with an Emergency Card prior to their departure, which includes telephone contact details for Hike Control. Alternatively, reports of an incident can be made to any checkpoint on arrival. Rescue teams can be contacted from any checkpoint.

RESCUE TEAMS.

Rescue teams will be in the area throughout the period of the event. If any competitor is unable to continue when in open country, the remaining members of his team should advise the rescue teams through any checkpoint - there will always be a checkpoint open in front and behind each team. It is essential that one person stays with the casualty and at least two people go for assistance. Any team finding another team in distress must assist and see that those in distress are comfortable. They should then ascertain the correct location and advise the nearest checkpoint.

The organisers wish to make it clear that no competitors will be transported back to Hike Control if they are found to be under the influence of excess alcohol.

HIKE MARSHALS will be operating throughout the event. They are there to help and assist, and to ensure that the event runs smoothly. Please advise your teams that the marshals are in place for their safety, so please follow their instructions if given.
